

# Hidden Giants training programmes

Hidden Giants is an education consultancy that collaborates with teachers, practitioners and policy makers. We support schools to re-imagine their curriculum by placing innovative, creative and critical thinking at its heart.

Hidden Giants offer intensive training programmes to meet modern professional needs across the school sector. Programmes can be delivered in a single day, or scheduled across three twilight sessions. Suitable for teachers, support staff, managers and leaders, Hidden Giants' programmes are brought to your school by expert facilitators.

## Participation and pupil voice

Hidden Giants demonstrate how pupil participation in meaningful and purposeful decision-making across a range of school issues can impact positively on achievement, attainment, health and well-being, with significant improvements to the culture of the entire school.

## Programme attendees will:

- Gain an overview of key models of pupil participation
- Understand the significance of participation across the formal and extended curriculum, in decision-making groups and in connection with the wider community
- Use evaluation tools to measure current levels of pupil participation
- Identify opportunities for greater participation
