

Hidden Giants training programmes

Hidden Giants is an education consultancy that collaborates with teachers, practitioners and policy makers. We support schools to re-imagine their curriculum by placing innovative, creative and critical thinking at its heart.

Hidden Giants offer intensive training programmes to meet modern professional needs across the school sector. Programmes can be delivered in a single day, or scheduled across three twilight sessions. Suitable for teachers, support staff, managers and leaders, Hidden Giants' programmes are brought to your school by expert facilitators.

Raising attainment

Attainment cannot be raised in isolation. Rather, academic attainment is built on personal and collective achievement, happiness and well-being. Hidden Giants demonstrate how the principle of 'a rising tide lifts all boats' can be effectively applied in educational contexts.

Programme attendees will:

- Gain an overview of the latest research on factors affecting attainment
- Understand how to support personal & collective achievement
- Purposefully harness relational resources within your school
- Identify specific areas for short and long-term intervention

Costs: £1250 + VAT

"I have begun to question my own practice more in terms of why am I doing certain things: Is it just 'because that's how it's meant to be done' or is it actually having an impact on the children and their learning needs?"
